## OVERVIEW

Senior experiential designer and spatial storyteller with **9+ years across production, experiential, and narrative-driven environments**. I lead concept-to-execution work, translating ideas into clear creative frameworks, design mockups, and built experiences. My unique strength lies in **telling brand stories through spaces that evoke emotion and activate the senses**, creating immersive environments that are meaningful, memorable, and culturally resonant, not just visually flashy. I blend story, space, and culture while maintaining strong executional clarity across fast-paced timelines.

---

## EXPERIENCE

### Freelance Art Director & Senior Experiential Designer | 2021–Present

**Select Studios, Agencies & Brands:** Acronym. Adirondack Studios · George P. Johnson · NVE Experience Agency · Vita Motus · Complex

- Lead rapid-turn experiential and themed-environment projects from concept through build.
- Develop spatial storytelling systems and design mockups aligned with fabrication realities.
- Support live installs and adapt designs on site.

### Founder & Creative Director — Art is for Ordinary People | 2025–Present

- Founded and direct a multidisciplinary arts initiative creating immersive, community-centered experiences in unconventional spaces.
- Oversee concept, programming, spatial layout, and live execution

### Senior Creative Lead — TH Experiential | 2025

- Led concept-to-execution creative for experiential campaigns and RFPs, shaping narrative, visual direction, and spatial design.

- Translated ideas into sketches, moodboards, and mockups while guiding teams through execution.

## **Environmental & Experiential Designer — Impact XM | 2023–2025**

- Developed narrative-led spatial concepts and brand environments for tech, lifestyle, and pharmaceutical clients.
- Supported projects through design development and on-site installation, collaborating closely with producers and fabricators.

## **Set Designer — Gallagher Staging & Productions | 2017–2019**

- 3D design, technical drawings, and scenic environments for concerts, festivals, and large-scale experiential builds.
